This is FANTASTIC work on Phase 1, identifying potential assets.

Phase 2

Getting people assigned with the expertise to check on the viability of specific pieces, are they mechanically sound, safe, etc.

Phase 3

Work with Finance / Procurement to obtain the selected equipment

Phase 4 (Can start now)

Work on identifying and securing not only drivers but operators.

Just great work so far team!

Hello Wendy – Attached are the vehicles we identified so far. The last sheet is the RCMP shopping list they provided us.

Marlin – Kelly is preparing a product that will be easier to reference.

Still working on a list of potential operators

Peter
